

The background image shows a large, modern indoor event space, likely a convention hall or exhibition center. The ceiling is high with exposed ductwork and circular lights. The walls are white with some faint line art. A large crowd of people is gathered, many wearing lanyards and badges, engaged in conversations or looking at displays. A prominent white logo with the text 'UX LONDON' is overlaid in the center. The overall atmosphere is professional and collaborative.

SPONSOR PACK

What is UX London?

UX London is an eclectic and distinctly original event for UX professionals. A conference that provides 3 days of inspiration, education and skills development, with a mix of stimulating talks and hands-on workshops from some of the biggest names in the industry.

UX London takes place on
24-26 May 2017

Super Early Bird tickets

£775 + VAT for three day passes

£345 + VAT for single day passes

Even the venue is unique. The conference is based at Trinity Laban in Greenwich - the perfect, RIBA award-winning setting for our attendees to immerse themselves in the world of User Experience design.

Each day is scheduled around a theme, which for 2017 will be **Product** on **Day One**, **Service** on **Day Two** and **Design** on **Day Three**. As we offer single day passes in addition to three-day tickets, delegates have the option to attend the whole conference, or just the days that best match their role. This means we have a higher number of delegates across the event - even more fantastic people for you to meet!

Attending UX London gives our delegates the practical skills needed to do their jobs better, whether they are budding information architects, seasoned practitioners or user experience designers. With top names including **Jeff Gothelf**, **Josh Seiden**, **Margot Bloomstein** and **Sunni Brown**, no other event outside of the US comes close to this level of training.

Audience

The event capacity is 450 delegates and tickets usually sell out well in advance of the event.

Attendees are mostly from the UK and Europe, but in the last couple of years we've seen an increased international presence, including delegates from the US, Australia and the Far East.

The range of job titles listed opposite are most prominent in our audience. However, we also expect to see other disciplines represented, including product teams looking to improve the experience of their applications, and existing designers interested in progressing their careers in the UX field.

Job titles include:

CTO (Chief Technical Officer)
CXO (Chief Experience Officer)
Head of Online
UX Manager
Product Manager
Senior Information Architect
Senior Analyst
User Experience Architect
Usability Consultant
Interaction Designer
Interface Designer
User Experience Designer

Simulcast Room

We introduced the Simulcast Room two years ago, and it's proved hugely popular. From the comfort of a sofa-filled studio, attendees are able to spread out with their laptops and enjoy the morning talks via simultaneous broadcast, live from the main auditorium. Sponsoring the Simulcast Room is a new, unique way to meet delegates and make your mark at the conference.

Included in this package are Simulcast Room branding, additional exhibition space, and 2 Three-day Simulcast Room passes.

Sponsorship of the Simulcast Room is for all three days of the event.
